

**KEEP THE ENVIRONMENT
HEALTHY FOR THE PLANET**

About us:

Cork fabric comes from the bark of the cork oak tree and can thus be harvested repeatedly, as the bark re-grows easily without damaging the tree, which makes it a truly sustainable material.

We are a professional manufacturer making premier cork fabric/ leather and cork products in China. Our cork materials are imported from Portugal with FSC certificate.

The production consists of gluing thin sheets of natural cork to various backings. And our cork fabric is certified to be dyed with water-based dyes and is free of formaldehyde and azo, which can cause environmental or health damage.

Respect for the environment, while care about consumer demand is the ultimate goal of our business.

ESPRESSO

No. Hcork-001

KEEP THE ENVIRONMENT
HEALTHY FOR THE PLANET

01

02

03

Article name: Espresso

No. Hcork-001

Composition: 48.4% cork, 35.1% coffee grounds, 16.5% polyester.

Specification: 60*90cm(piece)

Weight(g/m²): 250

Thickness(mm): 0.6±0.05

Materials: cork+bio-based/ microfiber/ PU/ TC/ canvas/ paper(customizable)

Cork place of origin: portugal

Remark:

☆ Made from recycled coffee grounds and waste cork, this product has the aroma of coffee.

☆ Processing available: carbonization, dyeing, print and coating.
